EDUCATIONAL EXHIBITS.

THE PROGRESS MADE IN LEARNING

IN ONE HUNDRED YEARS.

A display at the Cincinnati Centennial

Exposition that will interest every

person engaged in Educational Work

in this United States.

This department was organized for work

early in the year under the direction

of Commissioners Howard Doug-

lass, L. H. McCammon and H. J. Snider

as a general committee on Education and

Science.

These Commissioners especially desire

that the Exposition may show the mar-

velous progress of education in this

territory since its first settlement

therein, one hundred years ago, and that

the Educational Exhibit may be worthy

of the great interest it represents, they

have invited all persons in charge of

educational institutions, or engaged in any

perintendent of Music in the city pub-

lic schools, and Miss Clara Barr, of the

Conservatory of Music, Fourth and Law-

rence streets.

Besides the co-operation of the above

prominent educational workers in the

departments arranged, the Archbishop

Cincinnati received an invitation from the

Catholic schools, academies and colleges

to take part in the Exposition, and, after

consultation, he was satisfied that the in-

itation should be accepted, and appointed

the following as a committee to attend to

the exhibition on the part of the Cath-

schools: Very Rev. John C. A. Albrink,

V. G., Holy Trinity, Fifth street; Rev. A.

H. Walling, of Bank street, and Rev. P.

J. Ward, S. J., of St. Xavier's College.

The Archbishop appends to the circular

sent for exhibits the following very inter-

esting and commendable recommendation:

"I am glad to express my hearty agree-

ment with the unanimous sentiment of

the reverend pastors consulted.

"The Centennial Exhibition marks an

important epoch in the history of the Ohio

Valley. The labors of the church have

been one of the very greatest factors in

the progress of this hundred years. And

among her labors none are more impor-

tant, and none more entitled to the re-

spect of our fellow-citizens than what she

is continually doing for the true education

of the young—the leading up of the soul

through nature to nature's God. Of course

we have labored under great disadvan-

tages in regard to means; but in spite of

these, the devotion of pastors and

teachers, and the good spirit of pupils

have led to such results that we may well

be glad to have an opportunity of let-

ting the world see what we are doing.

"WILLIAM HENRY ELDER,

Archbishop of Cincinnati.

"CINCINNATI, March 25, 1888.

A Delightful Evening.

The visit of Col. James F. Ruckner and his son, Col. Lewis Buckner, and grandson, Buckner Speed, has been especially pleasant to many of our citizens. The father and son are both typical gentlemen of high social culture and refinement, and their old friends were delighted to see them in Hopkinsville once again. While in the city they were the guests of Dr. E. T. Cook, and Wednesday evening the doctor invited a number of our prominent citizens to meet his visitors. An elegant supper was served with all the appointments that the latest accomplishments of culinary art could dictate. Covers were laid for twenty and right heartily did the company enjoy the "flow of reason and feast of soul." Among those present were Messrs. Wm. Cowan, Geo. O. Thompson, R. M. Fairleigh, L. B. Hickman, H. H. Garver, J. W. McPherson, L. D. Burnett, J. W. Pritchett, M. D. Roales, E. P. Campbell, W. G. Wheeler, S. C. Mercer. Dr. Cook was accorded the highest praise by his guests and the company for his hospitality and kindness.

The County and the Railroad.

Judge Feland for the L. & N. and Col. Clark for the county argued the case of Christian county vs. the L. & N. Railroad before the Court of Appeals in Frankfort yesterday. Two suits have been brought, one by each party, which are joined by agreement for final adjudication. The county sues the railroad for \$7,300 unpaid taxes running through the years '82, '83, '84 and '85. The railroad sues the county for almost an equal amount of back taxes which it claims to have paid the county in excess of the lawful rate for the 5 years previous to '82. The case is an interesting and important one and the decision of the court is eagerly looked for.

Representative E. G. Sebree was in the city Tuesday. He says the Legislature will certainly adjourn May 4th. Mr. Sebree is attending his father at Trenton, and we are glad to learn his condition has improved.

Monday afternoon Davidson's coal yard, near the depot, came near being the scene of a fire. The office caught from a defective fuse, and but for the energy of bystanders a damaging fire would have resulted.

Workhouse manager Taylor Brown and his assistant, Jim Lander, took the prisoners from the jail and put them to work on the Greenview road. Mr. Brown went to the lockup to get Bud. McCarty, col. As soon as the young prisoner suited the free atmosphere he led the Mauder a foot race and made his escape. Bud made a detour of the town, putting in his appearance at the depot. He met Bud Moore, col, who was the cause of his incarceration, and tried to bribe him with a rock. The police are after the fellow and will probably catch him.

The Knights Templars held their annual election Monday night resulting as follows: C. H. Dietrich, S. C.; E. L. Waller, G.; Thos. Rodman, C. G.; B. W. Stoue, P.; S. L. Salter, S. W.; Bryan Topper, J. W.; J. W. Pritchett, T.; R. M. Anderson, R.; Wm. Skerritt, St. R.; J. C. Day, Sw. B.; G. C. Younger, W.; W. L. Lander, C. G. This red cross degree was conferred upon four candidates, and the evening was observed with a sumptuous banquet. The Knights Templars will attend the meeting of the Grand Commandery of Tenn., at Clarksville, May 8th.

Councilman A. H. Anderson after taking us for our workhouse criticisms, subjected himself to an interview on the whisky question. Said he, "I have seen all the men who would likely enter the whisky business and a number of other citizens, and I think a license of \$1,000 would be unsatisfactory. The Council has a right to fix the license, and I would vote to place it at \$500. This would give us about 10 saloons." He expressed this opinion on the presumption that the prohibitionists would not make a fight next May.

The announcement of Gordon Hanbery as an independent republican candidate for sheriff will be found in another column. Mr. Hanbery says his motive for making the race is that a combination exists in his party in this county, which makes it impossible for anyone outside of the ring to secure any office. He is not willing to submit his claims to this combination in a convention, but appeals to the party to assist him the first Monday in August. He is a trustworthy citizen and would make a competent officer.

Grandson Greer and Harry Williamson were thrown from a buggy near Wood's Mill Wednesday, and Greer sustained injuries of a serious nature. Williamson was badly bruised up also. The horse became frightened and turning short, overturned the buggy, emptying out the occupants on the rocks. Our farmers have been taking advantage of the few days of good weather lately, and a good deal of farm work has been done. By the way, your printer made me say in my last "complaining is in order." The item was very appropriate, but I meant to say "corn planting is in order."

Fire broke out on Mrs. Millie Orten's farm last Sunday and burned about a thousand two rails (mostly new ones) before the flames could be subdued. I hear of several fires of this kind but this one was the most destructive.

A little girl of Mr. Van Parker's sucked a cotton seed into her lungs about six weeks ago, but as it seemed to give the child no particular trouble at first its parents supposed it had swallowed it and gave the matter but little attention until recently the child began to complain, when they summoned medical aid but to no avail. The little sufferer grew steadily worse until death relieved her on Sunday evening.

ROUGH AND READY.

Chas. Haden, engineer at Wood's mill, met with a painful accident Tuesday. He was soldering two pipes with some molten lead and when the lead came in contact with the cold pipe a slight explosion occurred throwing the hot metal into his left eye. His physicians think they may possibly save his eye.

The good people of the Pembroke Baptist church recently made a liberal donation to their former pastor, Rev. J. M. Peay, of Russellville, to enable him to take a trip to Texas for his health. We are sorry to learn that Mr. Peay is now too ill to travel and his condition is constantly becoming more critical.

Primary Election.

[Union Local.]
The discussion, started by this paper, still continues relative to the best method of selecting the nominee for Congress in this District. The Local has no desire to be a meddling block in this matter, and certainly wishes to avoid a domestic quarrel. But, a very important consideration—the people of this county prefer a primary election to precinct mass conventions. The Local has sufficient assurance to speak authoritatively upon that subject. And for and in behalf of the people of our county, it claims their wishes have some right to be regarded. They have grown weary of conventive wire-work and tricksterism, and prefer to cast their ballots in a manner that is entirely susceptible of being fairly conducted, however it may have been in the past. That a primary is capable of being properly conducted all fair-minded men must admit, and so admitting, the fact that a majority of the voters of the county prefer to so express their will, should certainly obtain for them a respectful hearing.

The main argument against a primary is its costliness. Besides the paper necessary for poll-books, what is the cost? And the officers of election paid for their services? And, if a convention should obtain and delegates be appointed, are the delegates paid for their services? It seems to us just now, that it cannot possibly be altogether a question of cost. It is a question of principle. If a voter cannot be at the polls by 2 p.m. precisely, he is not likely to get a primary held from 8 a.m. to 6 p.m. This kind of reasoning is a puzzle with saying that if a man can not possibly pay a note the day it is due, he will never pay it at all. There is a vast difference in the opportunity given a man in voting at exactly 2 o'clock, and the privileges of so voting at any time during the day.

This thing which we have heretofore seen done in this county, at precinct conventions, of the convention houses getting their men together for the final moment, and refusing to wait two minutes for the others, near by, to arrive, and refusing to count them in on the second count, has been carried a little too far. The people have grown tired of it, and prefer a quieter method.

Mr. N. H. Frohlichstein, of Mobile Ala., writes: I take great pleasure in recommending Dr. King's New Discovery for Consumption. It has cured me of a severe attack of bronchitis and catarrh. Marion Harland's Opinion of Baking Powders.
Our readers have doubtless noticed the numerous discussions by the scientists and hygienists as to the relative value of the various baking powders. A careful sifting of the evidence leaves no doubt as to the superiority of the Royal Baking Powder in purity, wholesomeness and strength, from a scientific standpoint. An opinion, however, that will weigh heavier than any other, with our practical house-keepers, is that given by Marion Harland, the best known and most popular of American writers upon matters pertaining to the science of domestic economy, of house-keeping, and home cooking. In a recent letter to the Philadelphia Ladies Home Journal, this writer says:

"I regard the Royal Baking Powder as the best material used in the kitchen, so far as I have any experience in the use of such compounds. Since the introduction of it into my kitchen, three years ago, I have used no other in making biscuits, cakes, etc., and have entirely discarded for such purposes the house-made combination of one-third soda, two-thirds cream of tartar.

"Every box has been in perfect condition when it came into my hands, and the contents have given complete satisfaction. It is an act of simple justice, and also a pleasure, to recommend it unqualifiedly to American housewives."

Frank Leslie's Popular Monthly For May.

Attention is fixed on Germany. One veteran ruler, the Emperor William, has just passed away, and the grave is even now ready to receive his successor. The crown will rest on three heads in a single year. There are elements of great interest in a reign like that of the Emperor William, whose life covered most of our stirring century. The story can be read in a ducally illustrated article in Frank Leslie's Popular Monthly for May. The number deals with our land, and Mr. W. E. McManis tells the story of the "Star Spangled Banner" and its author F. S. Key. "A Week's Sojourn Among the Lakes of Central New York" is devoted to a neglected part of our land, which elsewhere would furnish a thousand themes to the poet and painter. Dr. Van Fleet gives a delightful study of our native

Warblers. Another article tells of Przewalski's Adventures in Central Asia. A short story by Julia is laying her plans for pushing her way to the borders of China and India, or perhaps beyond them. Our great university—Harvard—is brought before us in its essential condition and early history; and what lessons the photograph teaches of the light of the past. What with all this, and the magazine gives an endless amount of interesting and attractive reading.

The Kentucky Forest Association.

A short time since, an informal meeting of the friends of Forestry, was held at the Polytechnic Society of Louisville, for the purpose of taking steps toward the organization of a Kentucky State Forestry Society. It was decided that a meeting for the Journal organization should be held on Friday evening, May 4th at 7:30 p.m. in the hall of the Polytechnic Society. At this meeting, an address will be delivered upon the subject of Forestry, by the Hon. B. E. Fernow, chief of Forestry Division, Dept. of Agriculture, and a number of gentlemen of this state will make remarks upon the subject. The subject of Forestry is one which is attracting more and more interest in this country, from the fact, that though the timber supplies seem at present inexhaustible, yet at the present rate of destruction, the supply will in a very few years become completely exhausted. In our own mountains, the forest is being rapidly destroyed, and if protective measures be not soon taken, this magnificent timber region will be wholly denuded of its trees.

Our railroads are constantly demanding a large supply of lumber for ties, which can be rapidly grown in most sections of any state, at a minimum of expense, and at no considerable profit, lands being needed for this purpose which are not available for other crops. These and other reasons, which will be brought out in the future have rendered the organization of a Forestry Association in our state a great desideratum. Mr. Fernow is well known as one of the best informed men in the country on the subject of Forestry, and his address will be full of interest and profit to the people of the state. It is hoped that there will be a large attendance at this address. Any queries or communications on the subject may be addressed to the committee through Judge A. M. Brown, Elizabethtown, or Dr. J. L. Lewis, Louisville.

The four-acre lot of pie-plant near the southern suburbs of the city is attracting the attention of farmers and gardeners.

ENGLAND'S NEW RIFLE.

The Military Weapon Adopted by the British War Office.
In view of the fearful anxiety displayed by France and Germany in hurrying on the manufacture of magazine rifles, the factories working day and night, it is satisfactory to learn that our own War Office has been keeping pace with the times. The Small Arms committee, appointed as far back as 1864 to consider the subject, have practically settled upon a rifle which is now before the Secretary of State for War. It having been definitely decided that a small-bore magazine is to be the arm of the future, and a responsible committee, after protracted and exhaustive trials, having recommended an arm which fulfills all the conditions necessary for a military weapon, immediate steps should be taken to expedite the manufacture both by the trade and the Government factory at Enfield. The new arm, which is of the same length as the old-bottle and rug in the butt, weighs with its magazine only 9 pounds 3 ounces. The caliber is .303 in. the bullet, carried with copper weight, 217 grains, and the charge is 77 grains of compressed powder. The magazine, which is not a fixture, as has been stated, but is detachable at will, holds eight cartridges, and lies just in front of the trigger-guard, under the action. Not only can the soldier carry only a third more cartridges than at present, but the penetration, smashing power, accuracy and range are all superior to the present service rifle, and last, but not least, there is no perceptible recoil. This alone, apart from its other good qualities and economic features, should commend the new weapon to our soldiers. The committee confidently predict that not only will the difficulty of teaching recruits disappear, but that the shooting of the army generally will be vastly improved when the new rifle is issued.—London Army and Navy Gazette.

HOW TO HIT IT.
A Linguistic Tramp Success Where Many Others Have Failed.
"Did I get any thing in there?" repeated a dilapidated-looking fellow as he came down the steps of a Jefferson avenue residence yesterday. "Well, you can decide to excommunicate that I did."

"They generally bang the door against the toes of tramps," he said. "And they ought to. Not one tramp in fifty knows how to knock a house."

"How did you work that one?"
"Well, my ring at the bell was answered by a servant girl. I lifted my cap to her and said:

"In a minute the lady herself was 'low me, and I took off my cap again, made a very low bow, and said: 'Medios imprimis defacto caranter?'"

"Which?" she says.

"Oh, you don't speak Latin? Very few ladies do. You, of course, speak French, German and Spanish. In which language shall I say to you that I have met with misfortune, and desire food, an old coat, and a little money?"
"Oh, you needn't mind, being as you told me in English. Go to the kitchen and the girl will attend to a suit for you."

"Thank you, madam. Don four republicque ma!"

"Oh, of course."

"S'ce que es pulque camarero?"

"Certainly, I will. I am sorry for your misfortune, and will hunt up a suit for you."

"And there's the suit?"

"You bet; and she gave me a separate and thirty cents in cash to boot. Rocher de fleur hochantich!"

"Out, santiego de checo-box."—Detroit Press Press.

ANTIOCH.

ANTIOCH, April 21.—Mr. William Rodgers went to Bowling Green last week to get his horse. He was accompanied by Mrs. James Tucker, who is critically ill. Tom Cannon attended the Presbytery, Friday and Saturday last. Miss Mary Richardson is teaching school at the Antioch school house. Miss Ivy Harrow of your city was in the neighborhood Sunday.

A few nights ago some person went to Mrs. Grace's smoke-house, dug under and got twenty pounds of meat. They also got a good hog and a new bride. Some think Uncle Alex Wilkins got the meat and Alf Younglove the hog and bride.

A Standard View.
[Patent Standard]
A primary election has its bad features like every method of choosing between candidates where there is no restraint of law, but the primary election is the fairest method that has yet been suggested. It has worked better among our people than mass or precinct conventions.
